EDUCATION

Duke University

Durham, NC

Master of Engineering Management, Product Management track (GPA 3.94/ 4.00)

Aug 2024 – May 2026

- Relevant Courses: Product Management, Design Thinking & Innovation, Competitive Strategies, Marketing, Management.

Savitribai Phule Pune University

Pune, India

Bachelor of Engineering in Electronics and Telecommunication (GPA 3.50/4.00)

Aug 2018 – Jun 2022

WORK EXPERIENCE

Kahana Group Inc.

Chicago, IL

AI Product Manager

Sep 2025 – Apr 2026

- Championed the agentic browser workspace wedge by synthesizing research from 2 priority segments into a PRD, user stories, and acceptance criteria for hubs + intelligent grouping, aligning trade-offs and shipping a 40% reduction in open tabs.
- Orchestrated agentic assistance quality by defining an output rubric, edge cases, and telemetry for contextual retrieval and workflow suggestions, leading build reviews with engineering and QA to cut scope and rework by 30%.
- Mobilized discovery to de-risk roadmap bets through landing page experiments and targeted outreach, translating learnings into Notion prioritization updates that produced 320 early-access signups and 22 pre-launch demos.

Kurated Learning LLC

Durham, NC

Product Operations Management Intern

May 2025 – Aug 2025

- Led cross-functional funnel optimization by implementing GA4 events, conversion goals, and weekly KPI reporting, pointing drop-offs and aligning marketing and engineering on fixes that lifted conversion 30% and delivered 180 qualified signups.
- Built a weekly experimentation engine by standardizing briefs, hypotheses, and results tracking in Notion, aligning stakeholders on decisions, increasing engagement 28% while reducing turnaround time 45%.
- Engineered a voice-of-customer workflow by consolidating feedback in ClickUp with tagging and deduplication, converting themes into backlog inputs and release notes that informed 12 roadmap decisions.

Nativ

San Francisco, CA

Product Management Consultant

Aug 2024 – Dec 2024

- Facilitated stakeholder alignment on MVP scope by leading 35+ interviews and usability workshops, synthesizing insights into structured needs and prioritizing the top 5 workflow gaps to lock sequencing, clarify trade-offs, and accelerate execution.
- Resolved roadmap disagreements by defining a success scorecard for task success and retention, running GA4 and Mixpanel A/B tests with cohort analysis and feedback loops, and using results to lock sequencing for 3 critical features.
- Raised release quality by writing acceptance criteria into testable checks, adding validation KPIs to each story, and enforcing review gates in refinement and sprint reviews, reducing validation cycle time by 40% and improving on-time release readiness.

Infosys Limited

Pune, India

Product Delivery Analyst

Aug 2022 – Jul 2024

- Directed Agile delivery for FedEx SAP ERP by translating shifting stakeholder needs into Jira epics, stories, and acceptance criteria, coordinating releases to accelerate cycles 1.3x and drive \$1.5M efficiency gains.
- Accelerated SAP UI5 adoption by prototyping streamlined flows in Figma, running usability tests, and converting insights into rollout documentation and training assets, increasing adoption 18% across 4 business units and reducing user friction.
- Strengthened ownership and team execution by restructuring Jira into KPI linked epics, removing 60+ duplicates, clarifying owners and dependencies, and improving sprint follow through with cleaner planning, fewer blockers, and faster handoffs.

SKILLS

Product Management: PRDs, Feature Analysis, User Stories, User Acceptance, Backlog Prioritization, Sprint Planning, Cross-Functional Alignment, Customer Discovery, Competitive Analysis, Product Strategy, Roadmap Development, Product Risk

Data & Technical: SQL, Python, Tableau, Power BI, Mixpanel, JIRA, Confluence, Figma, Notion, HubSpot, Excel, Webflow, GA4

Certifications: IBM Design Thinking Practitioner, Duke Innovation and Entrepreneurship Certificate, Google Data Analytics

PRODUCT MANAGEMENT PROJECT

Agentic Browser Workflow Benchmark and Autopilot | Playwright, LLMs, Evaluation

- Designed an agentic-browser evaluation benchmark of 40 workflows with scored success rate, time-to-complete, and user intervention metrics to quantify reliability.
- Engineered a Playwright-based browser autopilot for 10 workflows with structured action logs and error taxonomy, improving completion rate from 55% to 78%.
